

REMARKS/ARGUMENTS

Claims 1-9 and 31-33 and 36 are pending in the application, with claims 10-30, 34, 35 and 37-39 being drawn to a restricted Group and now canceled without prejudice to Applicant pursuing these claims in a further application. Reconsideration and a withdrawal of all outstanding objections and rejections are hereby respectfully requested in view of the above amendments and the following remarks.

In the event that the amendment does not place the claims in condition for allowance, the Examiner is requested to telephone the Applicant's undersigned representative to discuss any remaining matters.

Applicant has amended the claims to overcome the outstanding objections and rejections.

Claims objections made to claims 1 and 36 are now remedied. Claim 1 has been amended in accordance with the Examiner's suggestions in the Office Action. Accordingly, the dependent claims 2-9 and 31-32, also objected to, are now believed to overcome the objection based on the amendment made to claim 1. Claim 36 has been amended to recites the phenazinium chloro and bromo compounds, and the objection is believed to be obviated in view of the amendment. Reconsideration is requested.
